

Sudden stroke signs? Call 112 in Romania.

If one side of the face suddenly droops, an arm weakens or speech becomes unclear, call 112 in Romania. Do not wait for every sign.

112

Call 112 immediately in Romania.

Call even if the signs have stopped.

Signs that may appear suddenly, alone or together

- **Face:** One side may droop or a smile may become uneven.
- **Arm or leg:** Sudden weakness or numbness may affect one side.
- **Speech and understanding:** Words may become slurred; the person may find it hard to speak or understand.
- **Walking, balance or vision:** Sudden dizziness, unsteady walking, loss of balance or a vision problem may occur.
- **Other sudden changes:** Confusion or a very severe headache with no known cause may occur.

What to tell the dispatcher

- Where is the person?** Address, entrance, floor and a nearby landmark.
- What changed?** The signs you saw and when you first noticed them.
- When were they last seen well?** If unknown, say so; do not delay the call.

Answer questions and follow the dispatcher’s instructions.

You can say:

“We are at [address]. The person has [signs]. I noticed them at [time]; they were last seen well at [time] / I do not know.”

Notes, if known

Exact location (address, entrance, floor, landmark)

Signs observed and time

Last seen well (time and date), if known

Known medicines and allergies, if the information is at hand
